

Vacuum pad - GBLP for flexible packaging bag

Selection of pad assembly

Example: GBLP - 30 - S - T1

① Diameter of suction cup ② Material of suction cup

GBLP - 30 - S - 02M - T1

① Diameter of suction cup ② Material of suction cup ③ Installation method ④ Plug

① Diameter of suction cup ② Material of suction cup ③ Installation method

code	30	40	50
Disc diameter	Ø30	Ø40	Ø50

code	02M	03M	04M
External thread	G1/4	G3/8	G1/2

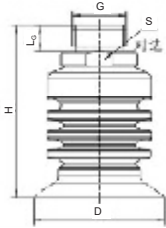

② Material of suction cup

	texture of material		Operating temperature range	colour	Applicable diameter of suction cup
S	silicon rubber	A40/S	-50~220°C	Light blue	Ø30~Ø50
FS	Fluorosilicone rubber	A55/S	-30~180°C	red	Ø30~Ø50

④ Plug

code	T1	T2
Plug	Round plug	Flower plug

■ Outline dimension drawing

Specification and dimension list

Unit: mm

Suction cup specification	Material of suction cup	Installation method	parameter					
			D	H	h	L _g	G	S
GBLP-30	S FS	02M	30	36.5	6	9	G1/4	19
GBLP-40		03M	40	40	6	10	G3/8	22
GBLP-50		04M	50	55	6	10	G1/2	28

Specification selection list

Connector specification	Material of suction cup	02M	03M	04M	T1	T2
		G1/4External thread	G3/8External thread	G1/2External thread	Round plug	Flower plug
model	S FS	•	—	—	○	•
GBLP-30		—	•	—	•	•
GBLP-40		—	—	•	○	•

Note: the default specification is "x", the optional specification is "x", and the optional specification is "-"

Packing method	date of delivery
1pcs/bag	The delivery period is generally 1-3 working days

Ordering example | GBLP30-S
GBLP-50-FS-G4M-T2

It is most suitable for adsorbing irregular packaging, frozen food bags, water bags, etc

New products
film
paper
plastic bag
Sheet metal
